What's New

Rate Increase - Statewide and Regional. Effective July 1, 2013, the retail sales and use tax rate increases by 0.3% statewide. In addition to the statewide increase, there is an additional 0.7% increase in localities included in the Northern Virginia and Hampton Roads regions. These changes apply to general retail sales only and do not impact the rate charged for sales of food for home consumption. Forms have been modified to reflect these changes. See Worksheet ST-8A for instructions.

Form ST-8B must be completed and filed to report sales in Virginia localities.

Definition of Qualifying Food

Food for home consumption by humans, as defined under the Food Stamp Act of 1977, 7 U.S.C. § 2012, qualifies for the reduced sales tax rate. The definition includes most staple grocery food items and cold prepared foods packaged for home consumption. Specifically excluded from the definition of food for home consumption are alcoholic beverages, tobacco and prepared hot foods sold for immediate consumption on and off the premises. The reduced sales and use tax rate does not apply to seeds and plants which produce food for human consumption. More information is provided in Tax Bulletin 05-78, Food Tax Rate Reduction, available on the website www.tax.virginia.gov/laws-rules-decisions/tax-bulletins/05-7.
