## Process

[OPEN AND SORT MAIL IN THE LOCALITY](#)

## Effective Date

01/01/2025

## Purpose

This task is performed to organize Individual Income Tax returns into bundles that are sorted by **Category** and **Form Type**. Sorting and bundling work by "like" characteristics with the appropriate identifying documentation ensures efficient local processing and screening and ensures that bundles of "like" characteristics are transmitted to Virginia Tax for handling.

Sending correctly sorted and identified bundles to Virginia Tax is necessary to ensure proper processing. Locality errors in sorting and identifying work may result in improper processing and inconvenience for the customer. This task is performed by Commissioner of Revenue's Office Locality Representatives as mail is received.
