Virginia Egg Excise Tax Return and Worksheet Instructions

General: A tax is levied on shell eggs and egg products sold or consumed in Virginia. The handler of such eggs is responsible for payment of the tax.

For purposes of this tax, "handler" includes:

1. Any person who operates a grading station, a packer, a huckster, a distributor, or other person who purchases, sells or handles eggs that are used at the wholesale level for consumption in Virginia, or a farmer who packs, processes or otherwise performs the functions of a handler; or

2. Any person in Virginia who purchases eggs, or the liquid equivalent thereof, from anyone other than a registered handler for use or consumption at wholesale in Virginia. Generally, the last handler who sells eggs or egg products to a retailer or food service establishment located in Virginia is responsible for collecting and remitting the tax to the Department of Taxation.

The term "registered handler" means any person who has registered with the Tax Commissioner for receiving monthly return forms and reporting the egg excise tax. Eggs shall be deemed to be used in Virginia if, at a Virginia location, they are incorporated into another product so as to lose their character as eggs. Eggs shall be deemed to be consumed in Virginia if they are actually consumed in Virginia or sold at a location in Virginia.

Every person, whether in-state or out-of-state, who engages in business in the Commonwealth as a handler is required to register unless exempt from the tax.

Exemptions: Any handler selling less than 500 30-dozen cases per year (equivalent to 15,000 dozen), or the liquid equivalent thereof, is exempt from the tax and is not required to be registered.

Eggs sold between registered handlers are exempt from the tax.

Filing Procedure: Use Form EG-2, Worksheet and Conversion Calculations for Egg Products to convert egg products into pounds of liquid equivalent for the computation of the tax for unshelled eggs.
